

# **BARNETT & BARNETT**

**The expert in franchise insurance**

**A specialist service for a specialist sector. Making it work for you.**

Saving you money by providing the right insurance products to match your needs whilst managing the process from end to end.

## **The Barnett & Barnett guarantee.**

**By combining our knowledge of franchise business with our insurance expertise we can create exactly the right insurance package for your business.**

**With unrivalled access to the specialist franchise world, we have produced a series of unique products to help both you as franchisors and your franchisee partners.**

### **Dedicated team**

We have a dedicated team who not only understand your business but are insurance experts able to source the right products at competitive prices, ensuring your business saves time and money.

Once you have explained your needs and issues, our job is to find the right solution. We are not in the business of telling you how to run your business. We find solutions to fit you, not to suit us.

Through our access to the specialist franchise insurers, we have a wide range of options which can be tailor made to fit your operation.

### **Market leader**

Our years of expertise, combined with dealing with some of the biggest names in the business, puts us in a unique position to meet your needs. Barnett & Barnett is the market leader in this area so with our experience you can rest easy knowing that your business is properly protected.

With the right insurance in place, you are free to concentrate on doing the business you know best with the confidence that you have the right backing and a dedicated team supporting you all the way.

**Franchisors are reliant on their franchisees in many ways. By developing a scheme for your business partners, we can give you peace of mind from the start.**

*They were very prompt with their response. Gave a competitive quote and knew the answers to all our questions.*

### **Protection for all parties**

Our special schemes for franchisees ensure their business is properly protected and, in turn, protects your brand name and reputation. We know you have better things to do, so we offer a full service from start to finish. When you sign up a new franchisee, our products are available to them and we will take care of all the ensuing administration. We can also offer a vetting service for franchisees who make their own insurance arrangements.

### **Risk management**

Risk management is a great way to lower your premiums and reduce the chances of a claim that could cost your business time and money. We offer a risk management service and will work with you and your franchisees in this area, including advice on health and safety.

### **Efficient claims process**

If things do go wrong and you need to make a claim, we are here for you too. A member of your dedicated team will guide you through the whole claims process, ensuring not only that your claim is dealt with quickly, but that you are fully recompensed and operations can return to normal in the minimum time.

Claims are followed up by your dedicated team. They will help identify any trends and notify you of any instances where franchisees could improve their risk management to reduce the risk of future claims.

An end to end service - designed to suit you.
