

# **BARNETT & BARNETT**

**Your risk management experts**

**Taking the risk out of your business**

# Reducing your risk, saving you money

**Things do go wrong in companies. Crises do happen. Our business is about trying to minimise these risks and to protect your business from the consequences of any disaster. Our expertise is to keep you legally watertight, avoiding the risk of unexpected fines or damage to your reputation.**

**We can work with you to identify risks and reduce these to an acceptable level.**

## **Our services**

We have repeatedly won awards within our industry for our services. We can take all the angst out of the equation, working closely with you to identify areas of key concern and suggesting practical solutions.

Our award winning services include:

## **Business Health Checks**

Our experienced team will look at every aspect of your business, from the physical protection of property and your employees to disaster planning, IT security, fraud and environmental issues.

## **Health & Safety**

Health & safety legislation changes frequently and it can be hard to keep pace but our experts are on hand to ensure your business continues to meet the required standards.

## **Disaster Recovery / Business Continuity Planning**

75% of businesses which suffer a major loss, such as a flood or other catastrophe, do not survive. Having a business continuity plan will reduce the chances of that happening and we can work with you to put this plan in place.

## **Motor Fleet**

We can help you examine and reduce your risk, utilising specialist analysis software and ultimately resulting in you helping to control the cost of your motor fleet insurance.

*Barnett and Barnett's risk management service has been second to none. Their expertise, guidance and input has been invaluable for our ongoing health and safety management programme and has facilitated a much easier interface between ourselves and our insurers.*

**Nigel Lavender**

Financial Director, Moss Europe Limited

*The Barnett & Barnett approach to Risk Management in our sector is both professional & reassuring. Courses & seminar's on a range of subjects compliment their philosophy of putting the customer first, and making sure that our long term interests and objectives are achieved*

**Steve Latchford**

Managing Director, WH Barley (Transport & Storage) Limited

### Property Loss Control

Usually the first port of call of the insurance surveyor. We can act as your liaison to help negotiate and explain requirements laid down by insurers and to provide help and advice on their implementation to reduce risk to your property.

### Free Risk Management Training Courses

We provide a series of training courses, giving that all important edge in helping you to manage areas of risk in your business.

### The benefits are worth it

Accidents involve a lot of hidden costs, so a good risk reduction scheme will save time and money.

Preventing an accident may also save you from losing customers who might switch to another supplier in the aftermath of an event.

It will also help to prevent any possible damage to your company's reputation or brand name.

### Insurance benefits

Working with us to mitigate your risks, it is just one step to reducing your insurance premiums. Insurers will look for customers with good health & safety records and will welcome evidence of a compliant and risk-conscious business.

- **Saving you money**
- **Saving you time**
- **Keeping your business compliant**
- **Experienced advisers on call**
- **Health & safety checks**

A quality risk management programme will ensure your business is in the best possible condition to survive and thrive no matter what happens. It will also save you money!

*Competent, concise and professional are just a few of the words that sum up Barnett & Barnett's risk management service, but above all it is their ability to break down complex issues into practical, straightforward solutions.*
